ELSEVIER

European Journal of Operational Research 93 (1996) 643–645

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

Contents Volume 93

1 The job shop scheduling problem: Conventional and new solution techniques (Invited Review)
J. Błażewicz, W. Domschke and E. Pesch

34 The Generalized Shifting Bottleneck Procedure
A. Ramudhin and P. Marier

49 Scheduling and common due date assignment with earliness–tardiness penalties and batch delivery costs
Z.-L. Chen

61 A simulated annealing approach for the one-machine mean tardiness scheduling problem
M. Ben-Daya and M. Al-Fawzan

68 Determination of common due window location in a single machine scheduling problem
S.D. Liman, S.S. Panwalkar and S. Thongmee

75 Scheduling arrivals to a production system in a fuzzy environment
P.M. Stanfield, R.E. King and J.A. Joines

88 Fuzzy logic concepts applied to machine–component matrix formation in cellular manufacturing
P. Narayanaswamy, C.R. Bector and D. Rajamani

98 Primary and secondary route selection in backbone communication networks
A. Amiri and H. Pirkul

110 The Queueing Maximal Availability Location Problem: A model for the siting of emergency vehicles
V. Marianov and C. ReVelle

121 A genetic algorithm for service level based vehicle scheduling
C.J. Malmborg

135 Vehicle routing problem with trailers
J.C. Gerdessen

148 Linear programming model for finding optimal roadway grades that minimize earthwork cost
A.A. Moreb

155 Chaos and nonlinear dynamics in financial and nonfinancial time series: Evidence from Finland
K. Takala and M. Virén

173 Analyzing risk and performance using the multi-factor concept
E.M. Vermeulen, J. Spronk and N. van der Wijst

185 Multi-period minimax hedging strategies
M.A. Howe, B. Rustem and M.J.P. Selby

205 A comparative evaluation of alternative models of the term structure of interest rates
G. Boero and C. Torricelli

224 OR Software
ORSEP – Operations Research Software Exchange Program, *H.W. Hamacher (ed.)*
K_TREE/K_SUBGRAPH: A program package for minimal weighted *K*-cardinality trees and subgraphs
M. Ehrgott and J. Freitag

Feature Issue: Neural Networks and Operations Research / Management Science

227 Neural networks and operations research/management science
R. Sharda and J. Wang

230 Parametric distance functions vs. nonparametric neural networks for estimating road travel distances
E. Alpaydın, İ.K. Altınel and N. Aras
244 A new neural network for solving linear programming problems
A. Cichocki, R. Unbehauen, K. Weinzierl and R. Hölzel
257 An adaptive, multiple restarts neural network algorithm for graph coloring
A. Jagota
271 Comparison of neural and heuristic methods for a timetabling problem
H.E. Mausser and M.J. Magazine
288 A neural network model for scheduling problems
I. Sabuncuoglu and B. Gurgun
300 Traditional heuristic versus Hopfield neural network approaches to a car sequencing problem
K. Smith, M. Palaniswami and M. Krishnamoorthy
317 Massively parallel analog tabu search using neural networks applied to simple plant location problems
S. Vaithyanathan, L.I. Burke and M.A. Magent
331 A neural network approach to solve the stable matching problem
Y. Yuan and L. Wang
346 Comparative performance of the FSCL neural net and *K*-means algorithm for market segmentation
P.V.S. Balakrishnan, M.C. Cooper, V.S. Jacob and P.A. Lewis
358 A comparison of nonlinear optimization methods for supervised learning in multilayer feedforward neural networks
J.W. Denton and M.S. Hung
369 Using neural networks for trauma outcome evaluation
S.W. Palocsay, S.P. Stevens, R.G. Brookshire, W.J. Sacco, W.S. Copes, R.F. Buckman, Jr. and J.S. Smith
387 Analyzing mathematical models with inductive learning networks
D.M. Steiger and R. Sharda
402 A comparison of SOM neural network and hierarchical clustering methods
P. Mangiameli, S.K. Chen and D. West
418 Feed-forward neural networks and feature construction with correlation information: an integrated framework
S. Piramuthu
428 Heuristic and optimization approaches to extending the Kohonen self organizing algorithm
M.A. Nour and G.R. Madey

449 Performance measurement criteria in health care organizations: Review and future research directions (Invited Review)
L.X. Li and W.C. Benton
469 Optimal realignments of the teams in the National Football League (Case Study)
R.M. Saltzman and R.M. Bradford
476 Optimal strategies for general price–quality decision models of new products with learning production costs
J.-T. Teng and G.L. Thompson
490 Genetic algorithms and traveling salesman problems
S. Chatterjee, C. Carrera and L.A. Lynch
511 Using case-based reasoning approach to the support of ill-structured decisions
P.-S. Deng
522 A simulated annealing heuristic for the one-dimensional cutting stock problem
C.-L.S. Chen, S.M. Hart and W.M. Tham
536 Identifying Pareto-optimal settlements for two-party resource allocation negotiations
J.E. Teich, H. Wallenius, J. Wallenius and S. Zionts
550 The synthetic hierarchy method: An optimizing approach to obtaining priorities in the AHP
S. Lipovetsky
565 Upper robust mappings and vector minimization: an integral approach
M.M. Kostreva, Q. Zheng and D. Zhuang
582 Examining the effect of second-order terms in mathematical programming approaches to the classification problem
P. Wanarat and R. Pavur
602 Bifurcation and adaptation in evolutionary interactive multiobjective linear programming
M. Dror and M.F. Shakun
611 The logarithmic least squares and the generalized pseudoinverse in estimating ratios
M. Kwiesielewicz

620 Stochastic dominance in an ordinal world
Y. Spector, M. Leshno and M. Ben Horin
628 A note on Kirkwood's algebraic method for decision problems
R. Guo and P.P. Shenoy
639 A Thurstonian view of the analytic hierarchy process *(Erratum). European Journal of Operational Research* 89 (1996) 427–444
D.B. MacKay, W.M. Bowen and J.L. Zinnes
641 OR Software
H. Thiriez
643 Contents Volume 93
